

Creekside Animal Clinic
3744 Wadsworth Rd., Norton, OH 44203
Phone: (330) 825-9556 Fax: (330) 825-9560

Pre-Surgical Instructions:

The night before surgery, your pet should not be fed after midnight. Please give NO food the morning of your pet's procedure, water is ok, however. Please check the list below to see what time your pet should be at Metropolitan Veterinary Hospital 1053 S. Cleveland-Massillon Rd., Copley, OH 44321

Mondays-----Be at the hospital by 7:00AM

Tuesdays-----Be at the hospital by 7:00AM

Wednesday-----Be at the hospital by 7:00 AM

Thursday-----Be at the hospital by 7:00 AM

Friday-----Be at the hospital by 7:00 AM

Several surgeries may be performed each day, and the doctor will call you after all the scheduled surgeries are completed. We have specific days and times at the hospital and at our office for our surgeries. Any questions about your pet should be directed to our office (330-825-9556). Due to the size of the facility and the number of doctors practicing, the hospital receptionists will not have detailed information about our patients other than discharge time.

Metropolitan Hospital offers **PRE-ANESTHETIC BLOOD TESTING** for an additional cost, the front desk staff at the hospital will ask you to decide about this at admission. This is **recommended** for all pets having an anesthetic procedure unless we have already completed blood work at our office prior to your pet's scheduled procedure.

All surgeries and in-patient procedures are performed at **Metropolitan Veterinary Hospital** unless instructed by your pet's doctor.
